

Josefina Charles

From Iringa, TZ
Form IV

Josefina was born as a member of the Hehe tribe in Iringa, in the south of Tanzania.

She loves the subjects History and Geography, after completing her studies she wants to be a Lawyer, Josefina can't remember her Dad for he died when she was only two years old. She lived with her mother until she died from a disease of the stomach when Josefina was 13. After living with her sisters for two years she moved in to her aunts' house in Dar es Salaam, where she spends her holiday

Being a lawyer she is expecting to fight for orphans in heritage cases, so no one can take their money from them.

"I am tall and thin I have brown skin color, I like to listen to gospel music, I like chatting with everyone!"

Doris Remmy

From Kilimanjaro Region
Form IV

Doris was born in 1990 at the foot of Mount Kilimanjaro as a member of the Chagga tribe.

Her favourite subjects are Biology, Chemistry and Geography. In the future she wants to be a doctor, working especially with women and children, for example as a gynecologist.

Since her parents died from a disease she doesn't know, when she was only 3 years old, she lived in the village with her grandma until in 1999 she moved to her aunt in Dar es Salaam for her primary education. She has two brothers but they are living far away and she doesn't have any contact to them.

"I like talking to different people from different nations. I like dancing and I love singing. When I get the chance I love reading the newspaper in order to know what's going on. My hope is to find a sponsor to help me so all my plans can become true! I would appreciate your help!"

Agnes Masala

From Mbea
Form IV

Agnes was born in Mbea 19 years ago. She wants to be a doctor in order to help other people. Her mother died in an operation after giving birth to her four children through caesarean, Agnes was 12 years that time, about her fathers death she doesn't know anything. A friend of her parents took her and her sister and two brothers into his house caring for them as well as his own two children. Out of her family it's just her and her sister who has further education, so they are the hope of the family.

“I like studying because I will get a good life not only for myself but also for my brothers and my sister. I like singing gospel songs and reading novels”

Felista Francis

From Dar es Salaam
Form IV

Felista is 18 years old, she has been born and raised here in Dar es Salaam though her mother was a Ugandan. Her parents both died when she was a child, she lost her father suffering from cancer, about her mother she doesn't know what killed her. Since then she was living with her older sisters, who are working, but for they don't have any higher education, they earn less and they are jealous of Felista getting the chance of a better life after studying, they are not supporting her at all. Apart from them she doesn't have any relatives. But she has her own plans for herself: She wants to be a journalist, she wants to inform people, because it is important for everyone to know what is going on. She is very interested in politics and would love to see different places. For her Advanced level studies she would like to take the subject combination of English – Geography – Mathematics.

“I like talking to many different people. I'm a strong woman who knows what she wants”

Sephrosa Makuyu

Dar es Salaam

Form IV

Sephrosa was born 17 years ago in the biggest national hospital in Tanzania in Dar es Salaam. She wants to be a doctor, taking care of people with heart problems, for she lost her mother dying from a heart disease. She came to Bethsaida, when her mother was still alive, disabled by her sickness, not able to care about her only daughter. When she was asking her mother about her father she told her that he died when she was born. Sephrosa knows him just from pictures.

In her life she wants to have her one family but also she wants to support others, like orphans, widows, old people, beggars and street children, depending on her income materially and morally.

During her holidays she is living at her aunts' place who is her guardian. She doesn't have work and therefore can't afford to support her niece in further education.

"I am a charming girl who likes pink and blue and is often happy. I love God that's why I like to pray and worship. I am asking God to make me be sincere, to make me keeping my promises to help other people.

When I came here to Bethsaida Girls Secondary school I couldn't even say my name in English... I am so happy to get this chance of studying all the subjects especially science subjects. I'm asking God to look after the ones who helped me"

Annastasia Mwenga

From Iringa

Annastasia was born on the 5th of July in Iringa/ central Tanzania as the second of her mothers' two daughters. They lost their mother when Annastasia was five years old, she was suffering from blood cancer, and their father followed 6 years later.

After her parents death their aunt became the guardian of the two girls. She is an old woman and sometimes they can't even afford enough to eat, so there is nothing left for education. When Annastasia heard an announcement about Bethsaida in church she was very excited and after telling her aunt about it she agreed to go to the interview with her, that is why now she can look forward even to join further studies after form 4, In her future Annastasia wants to be a doctor, her favorite subject is Biology.

"I pray to God to help me for my further studies, I am dreaming of becoming a doctor. I like reading books, playing hand games and singing praise and worship songs."

Maria Nestory

Dar es Salaam

Maria was born in Dar es Salaam in July 1993 as a member of the Kurya tribe.

She is the only girl in her family, with her four brothers. She lost both of her parents, first her mother when she was 4 years old, two years later her dad died from Diabetes.

Since then she was living with her aunt, who doesn't have a job and therefore is not able to support her in her education. One day she was listening to the radio when they announced about Bethsaida a centre which is helping orphans to get secondary education, she took a form passed the interview and became a student at Bethsaida Girls Secondary School.

"I really like studying because I know that education is the key of life, without education we can't succeed. I love praying to God and singing gospel songs. What I dislike is gossiping. "

Jennifer Munishi

18

From Kilimanjaro

Jennifer is a 18 year old form four student at Bethsaida Girls Secondary School, she was born in the region of Kilimanjaro as a member of the the Chagga tribe, the biggest tribe in Tanzania. She is one of three daughters to her parents. Their father died in an accident only two years after her birth. Jennifer's favorite subject is chemistry, she likes to read story books when she is in school, when she is home at her aunts' house for holiday she plays with the children.

In her future she wants to be a doctor.

“Here in Bethsaida I experienced things I never did before: The power of God and how people live together as one family.

In my life I have to become someone in order to help my country.”

Lucy Shadrack

17

From Mwanza

Lucy wants to be an accountant after finishing her studies, therefore she loves Mathematics.

She is the first born in her family with one younger brother. Her parents had to die in a ship accident when she was only six and her brother one year old. Since then they are living a very simple life with their grandparents.

She found out about Bethsaida by listening an announcement in the radio. She likes dancing like most of her fellow students and listening to music.

“In my life I want to be successful, I want to have a good job in order to help other orphans, who face difficulties I faced, who are living in difficult conditions, that is my wish”

Theresia James

19

From Arusha

Theresia was born on the 26th of December, it was a difficult birth and her mother died three days after she came. Her father was not able to take responsibility and ran away and until now she doesn't have any information about him. Even her relatives don't know him. Theresia is living with her aunt (the young sister of her mother) in Arusha. Her aunt doesn't work and she has her own children so there is not much left for her niece, but Theresia knows that it is not her fault and she is praying to God so her aunt can earn more money.

Theresia wants to be either a doctor or a lawyer. Her favorite subject is Biology and for she likes talking to people from different places, she likes English a lot.

"I like to pray and I want to help people who are in need. I also love all people I like sharing and exchanging ideas with different people in the world through letters and other ways of communication.

What I need is love and help, saying this I mean that I need the love other children were able to receive from their parents, while I never even saw my mothers face"

Adrophina Alex

19

From Mbeya

Adrophina is 19 years old, she was born in Mbeya, as the second out of four children to her parents. Her Dad died when she was seven years old.

When her uncle heard about the school Bethsaida, he decided to take his niece from the village and ring her here. Her uncle is her guardian; he is living in Dar es Salaam with his family.

Adrophina wants to become an economist; her favorite subjects are Mathematics and Geography.

This year Adrophina is the head girl of the school, which means a lot of responsibility and uses lots of energy. She likes playing netball and reading novels in her free time.

“The things which I need in my life are love and peace. And I need to study in order to have a good life like others and to help people like me. I really want to study. All my prayers will be with you always. Thank you so much and you’re welcome to Tanzania.”

Janeth Timoth

Janeth was born in Tanzania’s biggest national hospital in Dar es Salaam.

Her favorite color is red, because it is the colour of love. She likes to sing, to study, and to praise God. After finishing her studies she wants to be a lawyer.

Her father died from a heart disease in 2001.

Her mother passed away only three years ago in 2007, from a problem in her legs, in the end she was not able to walk or work.

Her guardian is her sister Stellah, she is a widow and she doesn’t even have enough money to help her own children. Luckily one day Janeth was listening to an

announcement about Bethsaida orphans school in the radio, they explained how to apply

and that is how Janeth was enabled to go on with her studies.

“Important to me in my life is to have a good life and to get education in order to achieve my goals”

Anitha Mgonja

18

From Kilimanjaro

Born on the 6th of July 1991 as the only child to her parents Anitha didn't have time to get to know her parents very well. When she was only three years old her mother died from a heart problem and only two years later her father followed.

Nowadays her uncle in Dar es Salaam is her guardian.

Anitha's favorite subjects are Biology, Geography and Mathematics, in her future life she wants to be an accountant.

“Bethsaida, the school where I am studying now is a good place. Soon I am going to finish form four. Here in the school we care about each other and I live in peace with my fellow students and teachers. I wish to continue with form five at a different school next year as my plan is to be an accountant. So I can help people, just like people helped me when I wasn't expecting it.

After finding a good work I also want to have a family, I hope god will take care of me and I will have a good husband and three children – that is enough for me. Then I can still help people who don't have parents like me. That's all about my life to be.”

Apolonia Mdendemi

18

Apolonia was born on the 9th of June 1992 as the first out of two daughters. Her favorite colors are pink white and night blue.

In class her favorite subjects are Biology, Chemistry and Geography. After her studies she wants to be a geologist or chemist.

During her free time she likes to dance, read and sing Gospel songs.

Apolonia's dad died when she was 4 years old, in the year 1996. After that her mom ran away from her and her young sister without saying goodbye, until now they don't know where she is. if she already died or if she is still living. Her dad died suddenly without any known disease when he was at his workplace.

From that time on her grandmother and grandfather were her guardians, they live in Dar es Salaam.

After completing standard seven there was no one to help her finding money for school fees to go on studying until she heard about this school in a radio announcement and went through the application process to be finally accepted.

“In my life I need peace and love as well as unity of the people. I need the help of people with mercy as my relatives are not caring for me and I have not seen my mother since she left. Not only that but also I need to get education which will enable me to help other people like us orphans or other people who are in trouble day after day. I am a girl who loves God and all people around me.”

Digna Osward

19

From Mbeya

Digna was born on the 23rd of September
Her favorite color is pink, her favorite subjects
Geography, Biology and History.

Her parents were the victims of an accident and
died when she was a baby.

After the death of Dignas parents, her uncle looked
after her. He lives in Mabibo/ Dar es Salaam. He
likes to keep her busy to get some money. He
himself has no job and thus it is difficult for them to
get enough food. At home they are safe, but still the
situation isn't good according to their poverty.

Of course there was no money to send Digna to
secondary school but when her uncle heard about
Bethsaida, he informed himself and decided to take the chance, Digna did the
examination, passed and started to live at Bethsaida

"I am Digna Osward. I come form Rukuwa. I like swimming, dancing, singing, playing football and netball and watching movies.

I live in a family of four family members, but long time ago before my parents died we were six. This made us four orphans. My brother is called Erick, my sister Jenipher and my younger brother Frank. We really love each other very much.

Now I attend form IV and I wish to complete my ordinary level in August. I would like to continue my studies and finish form V and IV in order to enter university. This is my chance for a better life.

In my future I want to be a professor to make sure that students are studying not dancing all day, as I want to see people working hard for their future.

My favorite food is rice with green beans. I prefer it with soft drinks like coca cola or mango juice. I like it because it is good for my health and gives me power to study and achieve my dreams. But as I believe in "no sweet without sweat" I wish to study on. Getting a better life I would probably one day also have the possibility to help orphans like me."

Jenara Alex

20

She was born on the 14th of April in a small village. Her dad died in an accident in 1995 when she was 6 years old, her mother died when she was 13. Jenara and her twin Jeradina are living in Dar es Salaam with their older sister and grandfather because of their studies, here at Bethsaida, before they were staying in the village with their grandmother, but she died. Her grandfather is an old man and her sister isn't working, so all of them are depending on the brother in law. He told her after finishing form four her sister and her have to find their own money to live.

Jenaras favorite color is pink, her favorite subjects Geography, History and Kiswahili. In the future she wants to be a Lawyer

“In my life I need to be a good person, like those people who are helping us, I also have to study hard in order to perform well and to get a job to help others like orphans and street children.

I thank God who made Michael Machary (our Chairman) to help orphans because I am still thinking, if I were still at home what it would be like. It's a miracle I am here. I thank God.”

Neema Vicent

19

Neema is born on the 29th of August 1994 as the fourth out of five children in Dar es Salaam.

Her mom died when she was nine years old having heart problems, her and her siblings stayed at their home and their relatives took care of them as good as possible Neemas favorite subjects are Biology and Chemistry. Her hobby to read story books

She wants to work as a doctor or an engineer but I also would like to visit different places in Tanzania and then in the world.

“Then in my future I will visit my favorite country Canada. I hope that someday will be that day.

As soon as I get the chance to study on I will try hard in order to fulfill my goals, to become a doctor or an engineer. After finishing my studies I can help my sister and brothers.

Amen”

Tinde Philipo

17

Tinde was born in Dodoma on the 15 of November in 1992, the official capital of Tanzania, but now she lives at Mbezi in Dar es Salaam. She has two older brothers and one younger sister. Their mother left them, when they were still small, no one knows where she is now, their father died complaining about chest pain, when Tinde was 6 years old, since then she stayed with her uncle.

She found out about Bethsaida Girls' Secondary School in an announcement at church. Later she also heard in the local radio about the school. She went there and was accepted.

Her favorite color is blue, her favorite subjects Mathematics, Geography and English. In her free time she likes to listen to music. In her future she wants to be an accountant.

“To fulfill my aims I need better education. Therefore I want to study form V and VI.”

Annastazia Magagula

Ruvuma region

She doesn't know her father and her mother died from yellow fever in 1995 when Annastazia was very small she doesn't really know her, since then she was living with the grandparents in Dar es Salaam.

After she finished standard 7, her grandma heard an announcement at church about Bethsaida. After doing the Interview and test, she entered form one in 2006.

She wants to be a lawyer to fight for women and childrens rights.

She likes chatting and eating different kinds of food.

In class her favorite subject is History because we can learn from the past.

“For me in life it is important to have education, a good life and to help orphans like me and people who are suffering from HIV/AIDS”

Levina Vicent

From Kilimanjaro

Levina's favorite color is pink and she loves playing netball. Her parents both passed away, her father died when she was only 2 years old, from liver cancer, her mother when she was in primary school. Since then her big sister is her guardian. After finishing primary school her older sister didn't have the money to send her to secondary because she is just doing some tailoring. When the priest at their church announced about Bethsaida a school for orphans, her sister went to find out about it and finally Levina was chosen to be one of the new students.

“...”

Agnes Charles

Agnes found out about this school Bethsaida after she completed her standard seven (primary school). Her friend who knew all about her life and her being an orphan, told her about this orphanage centre, she helped her to go there and Agnes succeeded and started form I. Now she is 18 years old and will finish her form four this year.

Her parents died June 21st 2001 when she was 8 years old. Now she is living with her uncle.

Her favorite subjects are Biology, Mathematics, Chemistry and English, after finishing her studies she wants to be an accountant.

“I wish in the future that all of us can help those who are suffering from disasters or diseases (HIV/AIDS, TB, Cancer etc.) But what is the most important to me is helping orphans because I know how it hurts to lose people you love and depend on. The important thing in my life is to make others happy because I like to see people being happy.”

Veronica Peter

Kigoma
18

Veronica was born, as one out of six children, in August 1991 in the hospital in Dar es Salaam. Her father passed away in the year 2000 from cancer, her mother followed in 2006, she died from TB. Since then she was living with her older brother who is working in a factory in Dar es Salaam. In her holidays she is going to his home.

After finishing standard 7 she stayed at home for one year before her brother found out about Bethsaida and sent her to do the interview and test.

She likes swimming, studying and watching movies.

Her favorite subjects are history, geography and biology, these are also the subjects she would like to do in A-level. Later she wants to be an accountant.

“In my future I want to help orphans and people who don’t have anyone to support them, I am a girl who is working hard in order to achieve her goals, Thanks a lot”

Virginia Paul

Chagga Tribe
18

Virginia is born in a small village (Mashati) near mount Kilimanjaro on the 4th of June in 1992. She is the fourth of five children. When their dad died when she was only three years old life became difficult. But she finished her primary school and when she heard about Bethsaida at church she thanked God she took the exam and interview and finally was accepted.

For holiday sometimes she can go to her aunts’ place, whois her guardian, she is safe there and she likes her aunt but they don’t have money to feed the whole family.

Her dream is to become an accountant, she likes the subjects Mathematics, Chemistry, English and Biology. In her sparetime she likes to pray and to listen to music.

“In my life I need to study hard to get a good job, to earn some money, enough to help other people who have problems like orphans and women.”

Agnes Malesa

18

Rangi Tribe

Dodoma

Agnes Birthday is on the 8th of August 1990, she has two sisters and one brother.

She lost both of her parents in 1999, her mother Lucy Emanuely was dying from high pressure. Since then her grandmother is her guardian, she is taking care of her and her sisters and brother. She is already 75 years old and often her daily tasks are to much. After finishing primary school a neighbour was telling her about Bethsaida, she got in and this year in september she will finish her O-Level.

Agnes likes to sing and to read novels, praying to God is very important to her.

In the fututre she wants to be a doctor.

Her favorite subjects are all science subjects especially Biology.

“I promise to study hard and do my best to make my dream come true and become a doctor, so I can help others, as I was being helped by so many people in my life”

Christina Mgamba

18

Luguru Tribe

Christinas Birthday is on the 8th of december as one of three children to her parents.

They lost their dad who died from HIV/AIDS 13 years ago.

Her guardian is her uncle and his wife, they like to see her studying and somehow they all get enough to eat. Though if she would not go to Bethsaida they would not have been able to pay for her secondary education..

When she finishes herr studies she wants to be a business woman.

Her favorite subjects are History and Geography, in A level she would like to study also Economy.

“I love to study and I love God because he is faithful. I promise to go on to study hard if I will get the chance of studying A-Level”

Marietha Christopher

18

Luguru Tribe

Marietha was born on the 5th of July 1991 in Morogoro/Tanzania. The parents both died of HIV/AIDS ten years ago which made her and her three sisters orphans.

Marietha's guardian, her aunt lives here in Dar es Salaam, while her sisters are staying with the grandmother in Morogoro (countryside). She likes to go there for holiday to see her family but also there are some problems providing a healthy diet for all of them.

After finishing her primary school, Marietha was selected to go for a prayer seminar at Agape center in Dar es Salaam, that is where she found out about Bethsaida, she performed well in the interview and test so she was selected to join form one in 2006.

Marietha likes to pray and sing and dance Gospel songs, she was participating in recording a CD with gospel songs of the school in the last year.

In the future she wants to be an engineer and she wants to have a family.

“I am Marietha as mentioned before. After the death of my parents I noticed the changes in my life , what it means to live with people who are not my parents, I was nine years old and told to clean for others, my older sister went to secondary school so I had to be a big sister to my young siblings . My grandmother was engaged in agricultural activities, but not making any profit, we had days without a single meal, I was helping her cultivating and planting maize.

When I came to Bethsaida I was so happy, because I could attend secondary school. I am tall, black and a little bit fat.”

Plakizia Msaliwa

17

Hehe tribe

Plakizia's birthday is the 6th of June, she was born in Iringa, where she lived with her mum, she doesn't know her dad for he died when she was very young. Her mum was taken from Malaria when she was ten years old. Plakizia, her two brothers and her sister were first staying with their aunt in Dodoma. Nowadays in her holidays she sometimes visits her other aunt here in Dar es Salaam. But for her it is just doing some cleaning there is no money even to buy food.

Plakizia's hobbies are listening to music by singing along, getting to know stories about famous people, laughing with everyone around her, chatting through letters and e-mails with different people, regardless of their age, color or sex, because this is helping her to improve her English and to learn more about the world.

In class she likes all science subjects. In the future she wants to be an international business woman.

*“What I need in my life is to fulfill my dreams, I need happiness and if I succeed I like to help orphans and all people who are in need, people suffering from HIV/AIDS etc. I am nothing without education!
That was just a little bit about me, thank you very much!”*

Wema Lwila

18

Hehe tribe

Wema was born on the 6th of June in 1991 here in Dar es Salaam her home is in Kigamboni near to the beach. She has one older and one younger brother, since their parents died, her father when she was 7 from Typhoid and her mother from TB when she was already 16, they are living with their aunt. Wema likes her aunt but for she doesn't have a continuous job she is not able to care about her and her siblings. Wema performed well in primary school, so she was selected to go to secondary school, but her aunt could not afford the schoolfees. A friend of her mother told the family about Bethsaida that's how she was enabled to receive secondary education.

Wema loves physical exercise especially running, her favorite subjects are Mathematics and Geography. After finishing her studies she wants to be an accountant, also she wants to have a family and adopt children who are in need.

“Here in the school I like to work in the garden, I like vegetables. I also like to take care of the chicken, both are my responsibilities here at Bethsaida. I am sure in the future life I will have my own garden and some chicken. I love to laugh and to have fun. Thank you so much!”

Angel Anthony Sanga

16

Nikinga tribe

Iringa

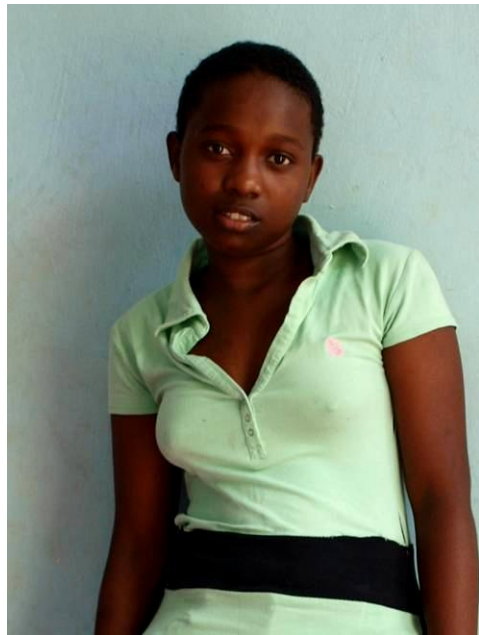

Angel was born on the 17th of July in 1994 as the only child to her parents. Her father left her mother Mary Sanga when she was pregnant, that time her mother was in her last year of primary school. Her mother married another man, who was cruel and didn't even want to see her, so her mother abandoned Angel. Since primary school she didn't hear from her.

The one who was taking care of Angel always was her grandmother who is living here in Dar es Salaam, they have enough food but not enough money for education, if she wouldn't live here in Bethsaida she would have to work.

Angel's hobbies are swimming, studying, listening to English songs and reading books in order to improve her English.

Her favorite subjects are Chemistry, Biology and Geography.

After finishing her studies she wants to be a pediatrician, gynecologist or anesthesiologist because she loves children so much.

"My dream is to get a better education to live a good life.

I am a nice, cool and kind girl. I am sure I am kind enough to help my fellow orphans by helping them to get a better education. This is the key of life."

Yasintha Haule

18

Mgoni tribe

Yasintha's birthday is the 25th of September 1991. She has one brother and two sisters, their dad died from Malaria when he was 45 years old. Since then her aunt is her guardian she lives here in Dar es Salaam. She doesn't have a job and therefore can't provide Yasintha and her siblings basic needs, furthermore she is a widow so there is no husband to help. Although they are poor they are at least safe where they live. She found out about Bethsaida through a student who already was studying there.

In her sparetime Yasintha likes to read different storybooks.

Her favorite subject is biology and in the future she wants to be a doctor.

"I am Yasintha Haule. I am eighteen years old. I am black and neither fat nor very thin. I wish one day I can visit America and I wish I can study in University, so that my dreams will come true."

Yasintha Magagula

19

Songea Ruvuma region

20. of february 1991 at Muhimbili (national Hospital).

Favorite color: pink

Study, gospel songs

Lawyer, in order to help to protect human rights.

Bethsaida, heard an advertisement in the radio tumaini.

They explained how to get a form and all procedure.

Father died from TB 1995 mum died while giving birth to her little brother 2002.

Since then she is living with grandmother and grandfather and her cousin in Dar es Salaam .

No brothers or sisters.

After finishing standard seven she started a vocational training in tailoring for two years, before getting into Bethsaida.

History, Geography, Mathematics

"After completing my studies I wish to have a good life so I can also help others who are in need like orphans, widows..."

Francisca Francis

17

Haya tribe

Francisca was born the 29th of March in 1992 as the last born of eight children to her father. Her dad died when she was only three years old from some kind of problem in his chest. 1999 her mother died from cancer.

Her guardian is her sister who is living in Dar es Salaam. Life at her sisters is very poor because she doesn't have a permanent job. It is safe but there is no good food or money. In her future Francisca wants to be a doctor a specialist for the brain or a professor at university. Her favorite subjects are Biology and Mathematics.

In her spare time she likes to sing songs, she has also taken part in a recording project for Bethsaida, whereby some girls were singing.

Furthermore she likes to study hard in order to join university one day.

"I would like to know many people also in other countries. I pray to God so I can go on with my studies, my biggest dream would be to study at a university in America.

I really like to study and to learn different things for example Computer. On the other hand I love to pray to God. Some people think I should be a gospel singer"

Silvia Ambroce

Chagga tribe

18

Silvia was born on the 25th of October in 1992 as one of four children in her family.

Their parents died in an accident both in the same day. Since then Silvia was living with her grandparents in Moshi near Mount Kilimanjaro.

After finishing primary school there was no money to send her to a secondary school. But luckily someone announced about Bethsaida at church and she found a way to get to the school and started Form I in 2006.

Silvia wants to be a pilot in the future; she thinks that women can do this job just as well as men.

Her favorite subjects are: Geography, Chemistry, Physics and mathematics.

In her sparetime she likes to sing gospel songs and to pray and worship the Lord.

“ I wish for myself that I am strong enough to struggle towards success and I wish for my fellow students the same, so that we can all have a good future life.

After getting a good job and earning money, I want to help others, like orphans and widows. Since I am the first born I also feel responsible for my younger brothers and sisters, to help them”
